of every kind and in every stage.

One of the most annoying coughs is a throat cough, where you have that constant tickling in your throat. It comes on worse at night, keeps you awake, and makes you have that smothered feeling in the chest. It hardly seems possible wint one dose of Cherry Pectoral will do for this kind of a cough, it brings such marked relief.

Put up in large and small bottles. When the cough gets down deep in the chest and the lungs are painful. put one of Ayer's Cherry Pectoral Plasters directly over the tender lung. It will draw out all the soreness.
